- linkedin.com/in/aaryan-patel-9869962a2

Skills

- Python and Java
- MERN stack development
- Machine learning
- Data structures and algorithms
- AWS and Docker
- Responsive web applications
- RESTful API development
- Frontend and backend integration
- Debugging and troubleshooting
- Agile collaboration
- Model development and evaluation
- Data engineering
- Feature engineering

Education

Expected in 08/2027

B.E.:

Artificial Intelligence And Data Science

Terna Engineering College
Nerul

Certifications

- **M.E.R.N.**, Developed and deployed end-to-end MERN applications with CRUD operations, JWT-based authentication, API integration, and cloud deployment.
- **M.L.**, Built and optimized ML models for real-world datasets, applying model evaluation to enhance predictive performance.

Aaryan Patel

Summary

Dynamic and results-driven professional with experience as a MERN Intern at Sapphire Technologies, where I developed responsive web applications and gamification modules to enhance user engagement. Proficient in Python and machine learning, I excel in agile collaboration and model development, driving project success through innovative solutions.

Experience

Sapphire Technologies - MERN Intern

08/2025 - 11/2025

- Collaborated with team to develop a responsive web application using the MERN stack, enhancing user experience and functionality.
- Created and implemented interactive gamification modules (points, badges, progress tracking) to boost user engagement and educational outcomes on awareness platform.

Zhagaram Technologies - ML Intern

03/2025 - 04/2025

- Collaborated with team to implement diverse ML concepts, enhancing project success.
- Developed and deployed machine learning models, optimizing performance results.

Accomplishments

- 2nd Runner-Up - Clash of Codes 2.0, 09/07/25, secured 2nd runner-up position in Clash of Codes 2.0.
- Successfully qualified for Final Round of Recode at ACM MPSTME, securing a position among the top 10 teams out of 1321+ participants.

Hobbies And Interests

- Algorithmic Problem Solving & Competitive Programming
- M.L. Cloud & DevOps Practices
- AI-driven Application Development

Projects

- Equipment Health Monitoring System:
<https://equiphealth-23.web.app/>,
A web application for monitoring the health of various equipment, with real-time data visualization and alerting.
- EduRights: Gamified Legal Awareness Platform for Children:
<https://gamified-awareness-platform.vercel.app/>
An interactive web platform that spreads legal awareness among children aged 8 to 16 through gamified learning.
